Hello Planning Department,

Wilfred (Bill)Fairbanks ([wafco@verizon.net](mailto:wafco@verizon.net)) has sent you a message via your contact form (<https://www.graffon-ma.gov/user/14766/contact>) at Town of Grafton MA.

If you don't want to receive such e-mails, you can change your settings at <https://www.graffon-ma.gov/user/14766/edit>.

Message:

During our zoom Meeting regarding 244 Worecter st. the subject of [215 Worcester St.](#) a few hunred ft. south of [244 Worcester St.](#) This project called Worcester St. Village Plan should also be considerd for traffic study and water run off and rain water leading into the brook down to Flint and Hovey Pond.

This plan will also crate heavy traffic and make it harder to make to make left hand turns and safty concerns. This study needs not only to be done around the 244 area but should also go from the Mass Pike entrance in Millbury down to Lake Ripple, this will effect this whole are as well.

Did the traffic study that the engineer company consider when they made the study in March not only did we have the pandemic going on, but less traffic to less people going to work, no school traffic, it was winter with less people driving. Also like to bring up how many of the enginers group live around here to under stand the problem for the residents.

This should also be brought up to the MADOT for consideration.
